

The logo consists of the letters "RS 6" in a large, metallic, three-dimensional font. The "R" and "S" are slanted, and the "6" is a standard vertical digit. To the left of the "R", there is a red rectangular panel with a thin black border. The top edge of this panel follows the slant of the "R".

RS 6

The Audi Sport logo, featuring a red chevron shape followed by the word "Audi Sport" in a bold, red, sans-serif font.

64 The fascination of Audi

The equipment for the vehicle illustrated in the Fascination section can be found on page 63.
The fuel consumption and CO₂ emission figures can be found on page 56.

Less weight.

More
driving pleasure.

There's a lot to the Audi RS 6 Avant: inspiring power, impressive attractiveness and intelligent Audi lightweight engineering. Because a lighter car is a more agile car. The extent to which this increases your driving pleasure cannot be expressed in figures. But it can in emotions. Experience the Audi RS 6 Avant.

The fuel consumption and CO₂ emission figures can be found on page 56.

Lower power-to-weight ratio.

Higher
torque.

The outstanding power-to-weight ratio of the Audi RS 6 Avant makes your driving even more dynamic. The enormous maximum torque of 700 Nm makes sure of that. The 4.0 litre V8 TFSI 412 kW engine accelerates powerfully from 0 to 100 km/h in only 3.9 seconds.

The RS 6 is not only irresistibly dynamic, it is efficient as well. Audi cylinder on demand switches four of the eight cylinders off if they are not needed – without you noticing. The engine still runs smoothly and powerfully, but needs less energy – thus reducing emissions.

The fuel consumption and CO₂ emission figures can be found on page 56.

Less rationality.
More
feeling.

Go on, give in to your enthusiasm – the Audi RS 6 Avant deserves it. Clear, precise lines define its muscular stature, the characteristic bumper design underlines the sporty exterior. Large air inlets and the optional innovative Audi Matrix LED headlights are additional highlights at the front. At the rear, special details indicate that the RS 6 is a high-performance model: the large oval-shaped tailpipe trims, for example, the striking diffuser insert and the RS 6 logo on the luggage compartment lid.

The fuel consumption and CO₂ emission figures can be found on page 56.

■ The optional ceramic brake is visible through the optional 21-inch wheels in 5-twin-spoke design. Accentuated wheel arches and sill extensions define the vehicle's powerful side line; the RS roof edge spoiler underlines the athletic rear. The Audi Singleframe, exterior mirror housings, roof rails and trim strips are designed in a discreet matt aluminium look.

The fuel consumption and CO₂ emission figures can be found on page 56.

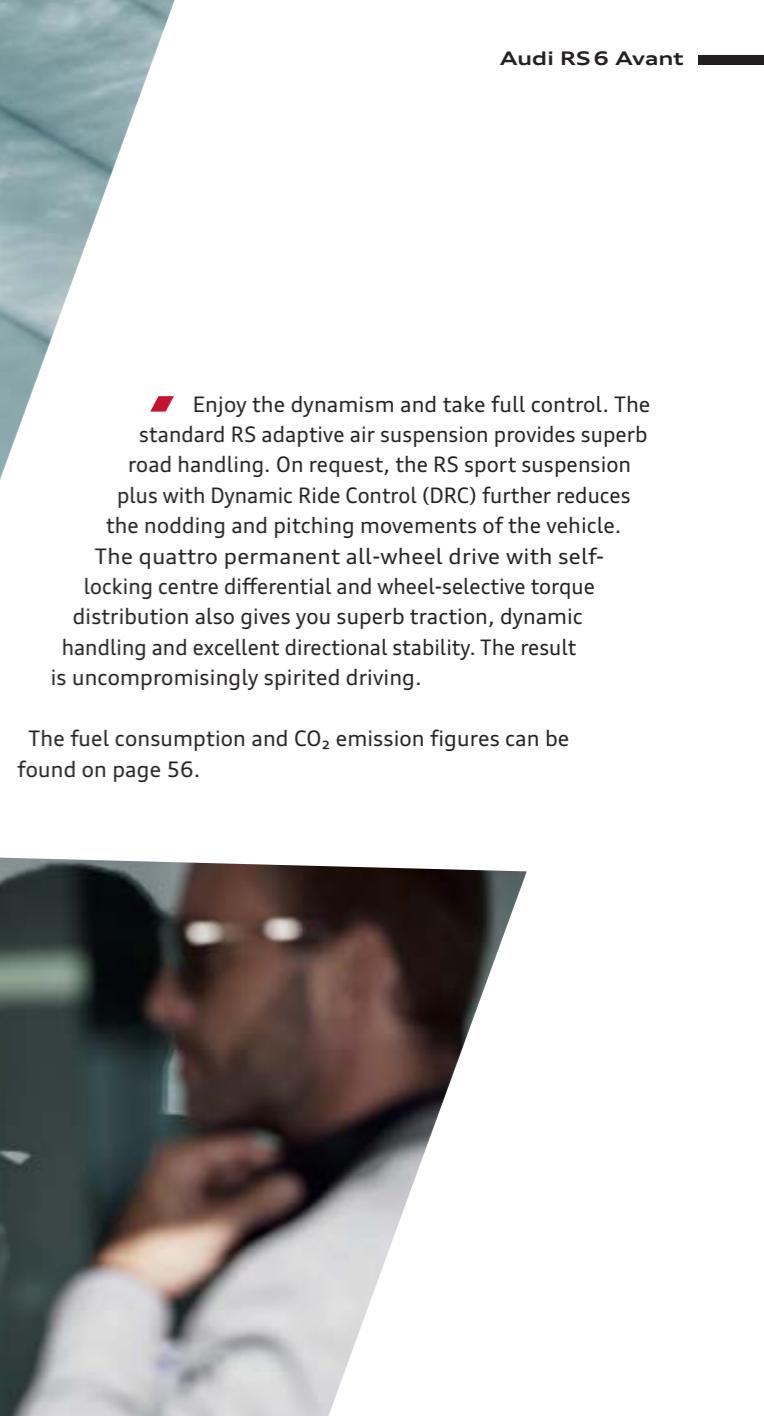

More exclusivity.
Fewer effects.

■ Illuminated door sill trims welcome you into the Audi RS 6 Avant, and exclusive inlays in carbon emphasise the sporty atmosphere of the interior. A honeycomb pattern decorates the RS sport seats, available in Valcona leather on request, the contoured shape of which provides excellent lateral support even during challenging drives. The RS multifunction sport leather steering wheel in 3-spoke design with shift paddles in aluminium look is pleasant to grip when steering and changing gear. And you have intuitive control over many vehicle functions via the MMI® navigation plus with MMI touch.

The fuel consumption and CO₂ emission figures can be found on page 56.

Enjoy the dynamism and take full control. The standard RS adaptive air suspension provides superb road handling. On request, the RS sport suspension plus with Dynamic Ride Control (DRC) further reduces the nodding and pitching movements of the vehicle. The quattro permanent all-wheel drive with self-locking centre differential and wheel-selective torque distribution also gives you superb traction, dynamic handling and excellent directional stability. The result is uncompromisingly spirited driving.

The fuel consumption and CO₂ emission figures can be found on page 56.

The fuel consumption and CO₂ emission figures can be found on page 56.

More gears.

Less
time lost.

The 8-speed tiptronic supports you with quick, precise gear changes – all to suit your personal style. With the Dynamic Shift Program (DSP) the transmission adapts to your driving style and changes gear at just the right moment. In addition to the Drive mode (D), the Sport mode (S) is also available, which you can use to make your driving even more dynamic. But at the same time the tiptronic also increases efficiency with its large transmission ratio spread.

In addition, Audi drive select gives you further individuality. It enables you to influence a range of vehicle components at the press of a button, for example the engine characteristics, the steering system and the suspension, to experience an even sportier and more balanced drive.

Dynamics, power and versatility. Uniquely interpreted. It's hard to express all that's in the Audi RS 6 Avant in just a few words. It has to be experienced – with lots of excitement. Climb in.

The fuel consumption and CO₂ emission figures can be found on page 56.

Vorsprung durch Technik.

The world is constantly changing. Technology is advancing at an ever faster pace. And in the process, more and more opportunities are opening up to you – nowhere more so than in the field of mobility. We are playing an instrumental role in shaping this progress with Vorsprung durch Technik. Striving to provide you with technology that enriches your life. Making sure that we don't just satisfy your expectations of mobility both today and in the future, but continue to surpass them.

Audi Sport: Technologies from motor racing. Transferred to the road.

Thrilling performance. Whether it's works motorsport, customer racing or our high-performance models – you'll not get such a potent adrenalin rush anywhere else. Audi Sport utilises the expertise gained in motor racing to incorporate innovative technologies to series production. With unrivalled passion – for outstanding dynamism.

Consistent power. Put to consistent use. The TFSI® engine.

Powerhouse: the 4.0 litre V8 TFSI engine with 412 kW. With a maximum torque of 700 Nm the Audi RS 6 Avant accelerates from 0 to 100 km/h in just 3.9 seconds. The propulsive power ends at an electronically regulated 250 km/h, with the option of boosting the top speed to 280 km/h or 305 km/h.

Efficiency system: with Audi cylinder on demand only four of the eight cylinders are active in partial-load operation depending on the driving conditions. The Audi valvelift system closes the intake and exhaust valves on two cylinders on each side and switches off their injection and ignition – whilst the engine continues to run as quietly as ever. As a result, neither is air drawn in nor fuel consumed – the fuel consumption and emission figures are noticeably improved. The 4.0 litre V8 TFSI engine also features a start-stop system and recuperation. And also excels with its spontaneous responsiveness and extraordinary power delivery over the entire engine speed range.

Control centre: the 8-speed tiptronic constitutes an adequate automatic transmission which is characterised by rapid gear changes and high efficiency. Thanks to the Dynamic Shift Program (DSP) the gear changes take place in the optimum engine speed range – reducing power flow losses while you enjoy agile motoring. The tiptronic comes with a sport program (S) or manual mode for an even more dynamic driving style.

The fuel consumption and CO₂ emission figures can be found on page 56.

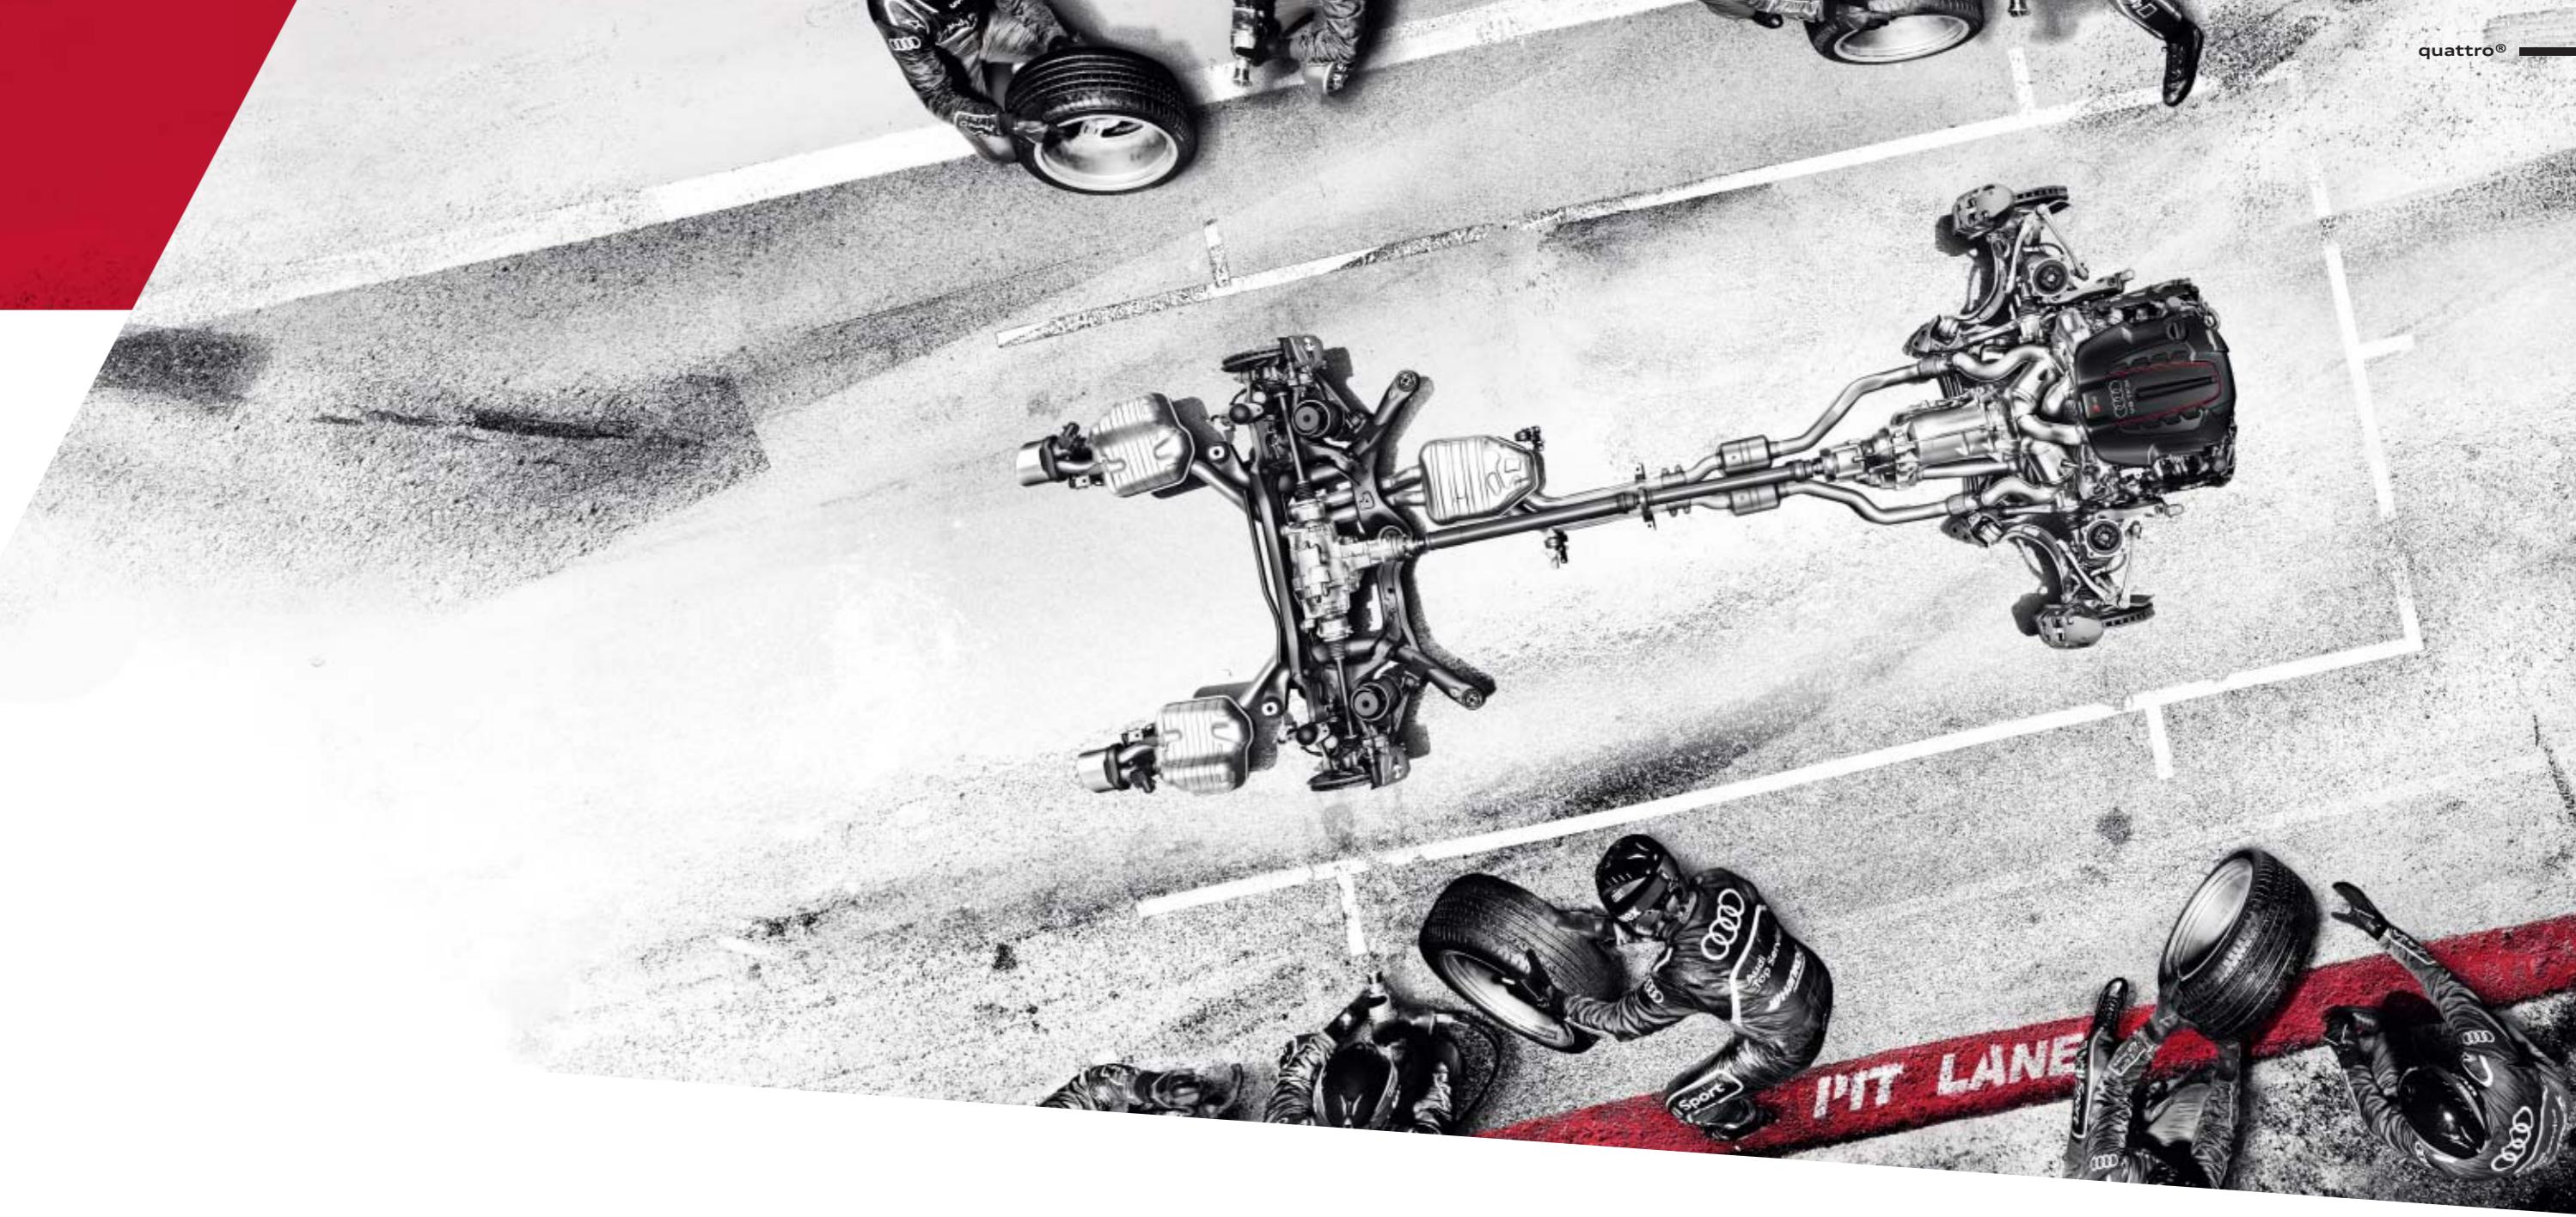

Superb roadholding.

quattro® permanent all-wheel drive.

Outstanding traction, improved handling dynamics and more driving safety. Or quattro for short. Hardly any other drive system transfers the engine's power to the road so effortlessly.

The central component is the self-locking centre differential. The basic configuration of the purely mechanical planetary gear set distributes the drive torque asymmetrically for better driving dynamics. In a ratio of 40:60 between the front and rear axle. But if necessary up to 70% can be distributed to the front or up to 85% to the rear to offset any occurring wheel slip. Using wheel-selective torque control, the drive force is distributed to each individual wheel depending on the driving situation. What is special here is the way the effects of the torque distribution are felt before undesirable wheel slip occurs. The result is a yawing moment which supports cornering – and thus provides precisely controlled, sporty handling with increased agility while maintaining superb traction.

By request the quattro drivetrain can be fitted with the sport differential on the rear axle, in order to further enhance driving dynamics.

Bending the road to your will. RS suspensions and RS brake systems.

RS brake systems

Demonstrate power. With its standard 19-inch RS brake system in the Audi RS 6 Avant. The 6-piston fixed callipers at the front take powerful hold of the wave brake discs whose cast friction ring with a wave-shaped outer contour is connected to the aluminium brake disc chamber by means of steel pins. This so-called floating mounting ensures that the friction ring remains largely tension-free, thus improving stability when subjected to high temperatures. Axial perforation and cooling channels for internal ventilation increase the performance of the brake discs. The intelligent mix of materials and characteristic geometry of the friction rings help reduce weight, thus improving the balance of the unsprung masses.

The optional 20-inch ceramic brake system* is available for even tougher requirements. It features brake discs made out of a carbon-fibre-reinforced ceramic material which is based on hard silicon carbide with embedded high-strength carbon fibres. The result is enormous abrasion resistance, high mileages, reduced weight and resistance to high thermal loads.

The RS sport suspension plus with Dynamic Ride Control (DRC) is available as an option. Steel springs and shock absorbers with variable characteristics reduce the rolling and pitching movements around the lateral and longitudinal axes by purely hydraulic means. The diagonal dampers are connected to one another via oil pipes and one central valve each. If the dampers compress differently, for example during fast cornering, the valves regulate the oil flow to the deflected wheel. They increase support there, thus reducing side tilt and enhancing driving dynamics.

The electromechanical power steering with RS-specific characteristic curve provides additional dynamism. Thanks to the low-position configuration, the steering forces are conducted just a short distance to the wheels, which provides a spontaneous steering response, precise feedback from the road and even more fun on bends. The steering also requires almost no energy when driving in a straight line, thus helping to reduce fuel consumption.

RS suspensions

Show character. Self-assured, sporty. With the RS adaptive air suspension. Experience outstanding directional stability and excellent agility coupled with precise steering characteristics. Thanks to the 5-link front axle design. Coupled with the self-tracking trapezoidal link principle of the rear axle. Many chassis components are made of aluminium to reduce weight and keep the unsprung masses low. The RS adaptive air suspension combines air suspension with a variably adaptive damper system. It allows for various ride heights and simultaneously acts as a level regulator so that driving features are not compromised even with a heavy load. The upshot is dynamic handling.

* Please consult your Audi partner or national Audi website to find out more about the special features of the ceramic brake. The fuel consumption and CO₂ emission figures can be found on page 56.

Reach your destination. The way you want.

Audi drive select.

Change character. With the standard Audi drive select in the Audi RS 6 Avant. Individual vehicle components can be influenced at the push of a button – such as the engine characteristics, exhaust flap control, transmission mode, the damper regulation of the RS adaptive air suspension and the steering torque of the electromechanical power steering – to adapt them to the prevailing driving situation. With four different modes including various settings: auto, comfort, dynamic and individual. auto for superior sporty quality. comfort for longer journeys. dynamic for more ambitious driving. And individual, so you configure the individual components yourself according to your preferences.

In addition, various optional systems can be adjusted. For example, the characteristic curves of the shock absorbers on the RS sport suspension plus with Dynamic Ride Control (DRC) can be varied in three levels: from balanced rolling in comfort mode through to sporty, direct responsiveness in the dynamic setting. The optional dynamic steering can also be varied. The power steering assistance and ratio are changed depending on the road speed and the Audi drive select mode chosen. The optional quattro with sport differential also allows additional infinitely variable distribution of the drive forces between the rear wheels. This torque manipulation specifically influences the vehicle's steering behaviour and increases agility even further. The adaptive cruise control response can also be set to be either more gradual or more spontaneous.

The fuel consumption and CO₂ emission figures can be found on page 56.

**As unique as you are.
The equipment options.**

Sportiness, comfort, design, functionality – whatever you demand of your Audi, it offers you a wealth of custom options. Audi equipment versions are varied and high-quality and you can tailor them entirely to your needs.

Character takes on many forms. Here are two of them.

What makes an Audi your Audi? Vehicle equipment entirely tailored to your needs. There are a wide range of options available to you for giving your vehicle the exact touch you have in mind. More sportiness? More elegance? Let yourself be inspired.

* Please note the special information relating to wheels on page 56.

Your Audi is painted not just once. But several times.

Choose the paint finish to suit your individual taste. But whichever colour you opt for, you can count on the outstanding quality of our painting process. Though no thicker than a human hair, the layer of paint on an Audi is actually made up of four different coats. And with a matt effect paint finish as many as six. To ensure that your Audi is optimally protected from environmental influences and wear. And also outwardly reflects your personality.

The perfect connection between an Audi and the road: Audi wheels.

To make sure you have peace of mind for every metre of your drive, Audi puts its wheels through an exacting series of specialised test procedures. Hardness tests, for example, aim for maximum stability, while a copper accelerated salt spray test – CASS for short – using acetic acid guarantees the greatest possible corrosion protection. Thanks to these and many other measures, we can ensure that every Audi wheel offers maximum quality – even after scores of kilometres. No matter which of the numerous designs you choose.

| Leather upholstery and trim

Alcantara/leather combination

for RS sport seats, front: seat centre panels and door trim inserts in Alcantara, as well as seat side bolsters, head restraints, front centre armrest and lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with diamond pattern; RS 6 embossing on the front-seat backrests

Valcona leather upholstery and trim with honeycomb pattern

for RS sport seats, front: seat upholstery, head restraints and centre armrest, front in Valcona leather; door trim inserts in Alcantara; lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with honeycomb pattern; RS 6 embossing on the front-seat backrests

Valcona leather upholstery and trim

for customised contour seats, front: seat upholstery, head restraints and centre armrest, front in Valcona leather; door trim inserts in Alcantara; lower part of centre console in leather; in conjunction with seat ventilation, front, seat centre panels of the front seats and the outer rear seats are perforated

Audi exclusive leather upholstery and trim (package 1) in Alcantara/Valcona leather

for RS sport seats, front; seat centre panels and door trim inserts in Alcantara as well as seat side bolsters, head restraints and centre armrest, front in Valcona leather; lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with diamond pattern; RS 6 embossing on the front-seat backrests; includes floor mats in black with leather piping in crimson red, controls with crimson red stitching and seat belts in crimson red

Audi exclusive leather upholstery and trim (package 1) in Valcona leather

for customised contour seats, front: seat upholstery, head restraints, door trim inserts and centre armrest, front in Valcona leather; lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with honeycomb pattern; RS 6 embossing on the front-seat backrests. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours

Audi exclusive leather upholstery and trim (package 2) in Valcona leather

for customised contour seats, front, in addition to package 1: armrests in the door trims and seat backrest covers in leather; seat attachments matched to the leather colour. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours

Audi exclusive piping for customised contour seats

individual choice of colour for the piping from the range of Audi exclusive colours. Only available in conjunction with Audi exclusive leather upholstery and trim (package 1 or 2) in Valcona leather

Audi exclusive leather upholstery and trim (package 1) in Alcantara/Valcona leather

for RS sport seats, front; seat centre panels and door trim inserts in Alcantara as well as seat side bolsters, head restraints and centre armrest, front in Valcona leather; lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with honeycomb pattern in crimson red; RS 6 embossing on the front-seat backrests; includes floor mats in black with leather piping in crimson red, controls with crimson red stitching and seat belts in crimson red

Audi exclusive leather upholstery and trim (package 1) in Valcona leather with honeycomb pattern

for RS sport seats, front: seat upholstery, head restraints, door trim inserts and centre armrest, front in Valcona leather; lower part of centre console in leather; seat centre panels on the front seats and outer rear seats with honeycomb pattern; RS 6 embossing on the front-seat backrests. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours

Audi exclusive leather upholstery and trim (package 1) in Valcona leather with honeycomb pattern

with Valcona leather upholstery and trim with honeycomb pattern in rock grey with contrasting stitching in rock grey

Airbag cover on steering wheel, in leather

for RS multifunction sport leather steering wheel and RS multifunction sport leather steering wheel, heated: in black leather

Audi exclusive leather package including airbag cover

armrests in the door trims, lower part of the centre console and airbag cover on the steering wheel in leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. In conjunction with RS multifunction sport leather steering wheel; flattened at the bottom without leather-covered airbag cover

Audi exclusive design package in Valcona leather with honeycomb pattern

for RS sport seats, front: seat upholstery, head restraints, door trim inserts and centre armrest, front in Valcona leather, black, with contrasting stitching in crimson red; armrests in the door trims as well as lower part of centre console in leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. Airbag cover on the steering wheel black in leather; in conjunction with RS multifunction sport leather steering wheel flattened at the bottom without leather-covered airbag cover

Extended Audi exclusive leather package

dashboard underside including glove compartment, armrests in the door trims, centre console as well as lower part of centre console in leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. Airbag cover on the steering wheel black in leather; in conjunction with RS multifunction sport leather steering wheel flattened at the bottom without leather-covered airbag cover

Audi exclusive leather-covered seat trim

for customised contour seats, front with memory function and RS sport seats, front electrically adjustable: seat side trims and front trims (customised contour seats, front) or trims of the extendable thigh support (RS sport seats, front) in fine Nappa leather; seat side trim with stitching; switches and handles for seat adjustment in black (not leather-covered). Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours

| Leather packages

Leather-covered armrests in the door trims

with Valcona leather upholstery and trim with honeycomb pattern in rock grey with contrasting stitching in rock grey

Airbag cover on steering wheel, in leather

for RS multifunction sport leather steering wheel and RS multifunction sport leather steering wheel, heated: in black leather

Audi exclusive leather package including airbag cover

armrests in the door trims, lower part of the centre console and airbag cover on the steering wheel in leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. In conjunction with RS multifunction sport leather steering wheel; flattened at the bottom without leather-covered airbag cover

Extended Audi exclusive leather package

dashboard underside including glove compartment, armrests in the door trims, centre console as well as lower part of centre console in leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. Airbag cover on the steering wheel black in leather; in conjunction with RS multifunction sport leather steering wheel flattened at the bottom without leather-covered airbag cover

Audi exclusive leather-covered seat trim

for customised contour seats, front with memory function and RS sport seats, front electrically adjustable: seat side trims and front trims (customised contour seats, front) or trims of the extendable thigh support (RS sport seats, front) in fine Nappa leather; seat side trim with stitching; switches and handles for seat adjustment in black (not leather-covered). Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours

| Seating comfort

Front seats, electrically adjustable, including

memory function for the driver seat

with electric adjustment of seat height, fore/aft position, seat and backrest angle as well as electric 4-way lumbar support; 2 presets for the electrically adjustable driver seat, electrically adjustable steering wheel and exterior mirrors

Seat heating, front

heats the seat and backrest centre panels as well as the seat side bolsters; individually adjustable in several stages for the seat and backrest

Seat heating, front and rear

functions as for seat heating, front, also for the outer rear seats, can be adjusted separately in several stages

Seat ventilation, front

By drawing in air, the system ensures a pleasant seating climate can be enjoyed even in high temperatures; seat ventilation of the seat and backrest centre panels as well as thigh support for the driver and front-passenger seats (adjustable in 3 stages); automatic heating by seat heating to prevent cold seats. If seat ventilation, front, is fitted, the leather on the front and outer rear seats is perforated.

Massage function, front

massages the muscles of driver and front passenger using 10 pneumatic cushions; choice of 5 different programs (Wave, Tapping, Stretch, Back, Shoulder) and 5 levels of intensity via multifunction switches on the seat or via MMI; display in MMI

| Seats in the rear

RS sport seats in the rear

2 single seats in the rear with shaped seat side bolsters and integrated head restraints, visually matched to the front seats; rear seat backrest can be split-folded 40:60 or fully; with remote backrest release in luggage compartment; rear seat bench with integrated storage

Headlining in cloth

	Equipment packages	Headlights/interior lighting	Exterior design	Interior design	Steering wheels/controls	Comfort	Infotainment	Assistance systems	Technology/safety	Audi Extended Warranty
Convenience package includes: <ul style="list-style-type: none">• Bose Surround Sound• seat heating, front and rear• interior mirror, automatically dimming• exterior mirror, electrically adjustable, heated and folding, automatically dimming on both sides, with memory function• 75 L fuel tank	LED headlights allow precise, near-daylight illumination of the road; combines LED dipped beam, high beam, daytime running lights, motorway light, indicator and static turning light in low-energy LED technology; with reversing lights in white; with third brake light integrated in the RS roof edge spoiler; with dynamic, clearly visible actuation of the indicators: the segments of the LED light band are illuminated in turn within milliseconds, creating a pulse of light that runs outwards in the direction in which the car is turning. When operated, the indicators send a distinctive signal to other road users	LED rear lights with dynamic indicator brake lights, tail lights, rear fog lights, indicators and reversing lights as well as rear number plate lights in low-energy LED technology; with reversing lights in white; with third brake light integrated in the RS roof edge spoiler; with dynamic, clearly visible actuation of the indicators: the segments of the LED light band are illuminated in turn within milliseconds, creating a pulse of light that runs outwards in the direction in which the car is turning. When operated, the indicators send a distinctive signal to other road users	Model name/logo RS 6 logo in the Audi Singleframe and on the luggage compartment lid	Matt aluminium styling package including air inlet duct with quattro® logo on the light switch, mirror adjustment switch, window control switches, air conditioning, MMI rotary/push-button control including MMI operating buttons, air vents and around the selector lever gaiter	Aluminium look in the interior in 3-spoke design, flattened at the bottom					
Dynamic package includes: <ul style="list-style-type: none">• dynamic steering• quattro with sport differential• RS sport suspension plus with Dynamic Ride Control (DRC)• increase of maximum speed to 280 km/h• Audi Matrix LED headlights• interior mirror, automatically dimming	Audi Matrix LED headlights This innovative technology combines a camera system with LED light sources and precision optics for highly adaptive light distribution. The system blanks out light that would otherwise shine directly on oncoming vehicles or vehicles in front but continues to fully illuminate all the other areas in between and alongside. The front lighting thus adapts dynamically, providing the driver with a much wider visual range. The conventional division between dipped and high beam is dispensed with. Familiar convenience functions such as the static turning light, all-weather light, junction light, motorway light and travel mode, which uses GPS data to switch between right- and left-hand drive modes, are integrated into the LED technology. The LEDs of the Audi Matrix LED headlights also perform the dynamic cornering light functions. Using vehicle support based on navigation data, it starts responding shortly before the steering wheel is turned. The marking light cooperates with the optional night vision assistant. If pedestrians are detected, individual LEDs flash briefly three times in succession to mark out the pedestrians clearly from their surroundings. Distinctive features include the crisp lighting pattern with matt black frame and horizontal web in glacier white, the LED daytime running lights and the dynamic indicator in the headlights and rear lights. Including headlight cleaning system	Audi Singleframe with radiator grille with honeycomb design in gloss black and one-piece trim frame in a matt aluminium look	RS bumpers in a sporty dynamic design; at the front with large air inlets and side flaps in gloss black, as well as front spoilers in matt aluminium look, at the rear with diffuser insert in gloss black	Gloss black styling package including air inlet duct with quattro® logo in black, with embroidery of the front floor mats; piping and stitching in black	RS multifunction sport leather steering wheel in 3-spoke design front spoiler, frame of the radiator grille and trim strips on the side windows in gloss black; including air inlet duct in the Audi Singleframe in gloss black with quattro logo in matt titanium grey; roof rails in matt black					
Dynamic package plus includes: <ul style="list-style-type: none">• ceramic brake• dynamic steering• quattro with sport differential• RS sport suspension plus with Dynamic Ride Control (DRC)• increase of maximum speed to 305 km/h• Audi Matrix LED headlights• interior mirror, automatically dimming	High-beam assist improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience. Depending on the traffic situation, the high beam is automatically switched on or off. Working within system limits, automatically detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. In conjunction with the optional night vision assistant, the networked vehicle functions provide the marking light for detected pedestrians for enhanced safety when driving at night.	Wheel house extensions front and rear	Audi exclusive floor mats with RS 6 logo and coloured leather piping in black, with embroidery of the front floor mats and coloured leather piping. Individual choice of colour for the leather piping and the stitching from the range of Audi exclusive colours	Carbon styling package including air inlet duct with quattro® logo front spoiler, side flaps and rear diffuser insert in carbon; including air inlet duct in the Audi Singleframe in carbon with quattro logo in matt titanium grey; frame on the radiator grille and trim strips on the side windows in gloss black, roof rails in matt black	RS multifunction sport leather steering wheel in 3-spoke design, heated individual choice of colours for the floor mats, the leather piping and the stitching from the range of Audi exclusive colours					
	Ambient lighting including integrated eyewear compartment in the roof module; ambient lighting can be configured via the MMI	Sill extensions painted in body colour	Audi exclusive carpet and floor mats individual choice of colours for the carpet, the floor mats, the leather piping and the stitching from the range of Audi exclusive colours	Steering wheel adjustment, electric adjustable in height and reach, with automatic entry and exit function	Exterior mirror housings choice of:					
	Roof rails in matt aluminium look for safe transportation of items, strong and aerodynamically shaped	Trim strips on the side windows in matt aluminium look; cover strips, B-pillar trims and triangular panels on the rear doors in gloss black	RS selector lever knob in perforated leather with RS logo and decorative ring in aluminium look; selector lever gaiter in leather with contrasting stitching in rock grey	matt aluminium look						
	RS roof edge spoiler on the luggage compartment lid, painted in body colour	Audi exclusive leather controls steering wheel rim, selector lever knob and gaiter in Audi exclusive leather. Individual choice of colour for the leather and the stitching from the range of Audi exclusive colours. 	In LED technology: <ul style="list-style-type: none">• courtesy lighting on the underside of the door handles and handle recess lighting• entrance light, front and rear• 2 reading lights each at the front and rear• lighting for door pockets, inside door handles, vanity mirrors and footwell• ambient lighting for centre console and door inner panels to help occupants better orient themselves									

| Roof system**Panoramic glass sunroof**

2 sections; electrical activation to raise and open the front glass section; with tinted glass insert and an electrically operated sunblind as well as convenience closing/opening from the outside via the vehicle key; ensures a comfortable interior that is flooded with light; improved interior climate by means of efficient ventilation; including integrated wind deflector

| Glazing**Heat-insulating glass**

green-tinted windscreens and front side windows with acoustic glazing for improved noise insulation; rear window heated, with timer

Dark-tinted windows (privacy glazing)

dark-tinted rear window, rear door windows and rear side windows

Insulating/acoustic glass

2 panes of glass bonded together by a plastic film improves exterior noise insulation and theft protection. An additional reflective coating reduces the build-up of heat in the interior. Windscreens with viewing window for toll collection devices; standard glazing for rear window

Insulating/acoustic glass and dark-tinted windows (privacy glazing)

windscreens and front door windows in insulating/acoustic glass; dark-tinted standard glazing for rear window, rear door and rear side windows; windscreens with viewing window for toll collection devices

Sunblind, manually operated

for the rear window and the rear door windows

| Climate control**4-zone deluxe automatic air conditioning**

- with indirect ventilation and sunlight-dependent control
- electronically controls the air temperature, flow rate and distribution
- humidity sensor
- combined/fine particulate filter
- automatic recirculation mode by means of air quality sensor
- use of residual heat
- separate regulation of footwell temperature
- ventilated glove compartment
- air-conditioning controls, front, with digital display
- separate temperature distribution for driver and front-passenger seat
- ventilation in the rear via the centre console

- air vents in the B-pillars
- additional air-conditioning controls with digital display for climate control in the rear with separately adjustable temperature and blower settings and air distribution for the left- and right-hand sides (rear functions can also be set from the front air-conditioning controls)
- choice of 3 climates: gentle, medium, intensive
- key-coded settings

Convenience key with sensor-controlled release of the luggage compartment lid

features as for convenience key. Moving your foot (in a kicking motion) below the rear bumper causes the luggage compartment lid to swing open automatically if the vehicle key has been detected.

| Closing systems**Convenience key**

access authorisation system, the key only needs to be carried with you; the vehicle is locked and unlocked from outside via sensors on all door handles. The luggage compartment lid can also be opened separately when the vehicle is locked.

Luggage compartment lid, electrically opening and closing

opening via a button on the vehicle key or in the driver's door or using the soft-touch button in the luggage compartment lid handle recess; closing via button on the inside of the luggage compartment lid, the button in the driver's door or via the optional convenience key (long press). In conjunction with the convenience key, it is possible to close the luggage compartment lid and simultaneously lock the car via an additional button on the inside of the luggage compartment lid. Including servo closing and programmable luggage compartment lid opening angle as well as an electrically opening and closing luggage compartment cover, can also be operated manually

Anti-theft alarm

monitors doors, bonnet and luggage compartment lid; including interior monitoring (can be switched off), tow-away protection via an angle of inclination sensor and signal horn independent of vehicle electrical system; with safe-locking function: prevents the doors from being opened from the inside once the vehicle has been locked with the vehicle key

Convenience key with sensor-controlled release of the luggage compartment lid

preparation for connecting a tracking system (available from Audi Genuine Accessories) that enables a stolen vehicle to be located and tracked

Power-assisted door closing

automatically pulls the doors into the locks when not fully closed

Garage door opener (HomeLink)

programmable radio-operated remote control with operating buttons integrated into the front roof module, can be used to open many garage doors and exterior gates; allows control of security and lighting systems; code identification guidance and set-up assistance through the MMI navigation plus. For further information please contact your Audi partner or visit www.eurohomelink.com.

Storage/transport

Storage compartments

storage compartment in the door trims, storage net on the front-seat backrests, storage compartment under the front seats (not in conjunction with customised contour seats, front) and in the centre console; glove compartment on the front-passenger side, lockable, large-volume, illuminated, with holder for writing utensils; 2 cup holders on the centre console and one 12V socket

Load-securing kit

for the rail system in the luggage compartment, with telescopic rod and attachment strap, for individual partitioning of the luggage compartment as well as for securing objects

Driver information system with colour display

high-resolution 7-inch TFT colour display directly in the driver's field of vision; displays information from the MMI system, infotainment systems and driver assistance systems; display of trip computer with short and long-term memory, digital speedometer, gear display, outside temperature, plus door and luggage compartment lid check; RS menu with shift light, charge pressure and oil temperature display as well as lap timer; can be operated via an RS multifunction sport leather steering wheel; including attention assist: attention assist warns the driver in the form of an acoustic signal and a visual warning, if it has evaluated that the driver's attention is lapsing.

Partition net

detachable; for fastening to the bodywork or to the folded-down rear seats, useful with the rear seats up, or folded down on one or both sides

Storage package

luggage compartment net for attaching objects to the lashing points on the luggage compartment floor, additional 12V socket in the rear

Loading floor

with protective cover, with RS sport suspension plus with Dynamic Ride Control (DRC) with dirt collecting tray; easily cleaned, ideal for transporting soiled items

Luggage compartment

large-volume, with large through-loading width; including side net and 12V socket on the right-hand side of the luggage compartment; retaining straps on the left-hand side of the luggage compartment; bag hooks on the left and right; 4 lashing points on the floor of the luggage compartment; luggage compartment cover

Reversible mat

for covering the luggage compartment, can also be used with the rear seat backrest folded down; velour on one side and rubber coated on the other; with fold-out cover for loading sill and bumper

Head-up display

projects as required information relevant to the driver from the assistance systems, navigation or the RS menu of the driver information system, as well as warning symbols onto the windscreens in the driver's direct field of vision. The height-adjustable head-up display provides a multicoloured display with good contrast and minimal distraction from the road. Activation using the button next to the light switch

Provision for trailer towing hitch

includes preparation for the control units and a reinforced engine cooling

Through-loading facility

for the practical transportation of long items; including rear centre armrest, foldable with storage compartment and 2 cup holders

Trailer towing hitch

mechanically swivelling, bar and ball head made from forged steel; operated via draw-button in the luggage compartment, with control light in the luggage compartment and display in the instrument cluster to monitor secure attachment of trailer towing hitch; trailer stabilisation system via the Electronic Stabilisation Control (ESC)

Rail system

in the luggage compartment; including 4 lashing points for securing loads, suitable for individual positioning in the rail system

| MMI®/navigation/display instruments

RS instrument cluster

with black dials, red needles, white scales, RS 6 logo

in the rev counter and dynamic ready-check feature

Driver information system with colour display

high-resolution 7-inch TFT colour display directly in the driver's field of vision; displays information from the MMI system, infotainment systems and driver assistance systems; display of trip computer with short and long-term memory, digital speedometer, gear display, outside temperature, plus door and luggage compartment lid check; RS menu with shift light, charge pressure and oil temperature display as well as lap timer; can be operated via an RS multifunction sport leather steering wheel; including attention assist: attention assist warns the driver in the form of an acoustic signal and a visual warning, if it has evaluated that the driver's attention is lapsing.

Partition net

detachable; for fastening to the bodywork or to the folded-down rear seats, useful with the rear seats up, or folded down on one or both sides

Storage package

luggage compartment net for attaching objects to the lashing points on the luggage compartment floor, additional 12V socket in the rear

Loading floor

with protective cover, with RS sport suspension plus with Dynamic Ride Control (DRC) with dirt collecting tray; easily cleaned, ideal for transporting soiled items

Luggage compartment

large-volume, with large through-loading width; including side net and 12V socket on the right-hand side of the luggage compartment; retaining straps on the left-hand side of the luggage compartment; bag hooks on the left and right; 4 lashing points on the floor of the luggage compartment; luggage compartment cover

Reversible mat

for covering the luggage compartment, can also be used with the rear seat backrest folded down; velour on one side and rubber coated on the other; with fold-out cover for loading sill and bumper

Head-up display

projects as required information relevant to the driver from the assistance systems, navigation or the RS menu of the driver information system, as well as warning symbols onto the windscreens in the driver's direct field of vision. The height-adjustable head-up display provides a multicoloured display with good contrast and minimal distraction from the road. Activation using the button next to the light switch

Through-loading facility with removable ski/snowboard bag

functions as for through-loading facility, additionally with removable bag, secured by a strap, for practical transport of long items, e.g. up to 4 pairs of skis or 2 snowboards

Rail system

in the luggage compartment; including 4 lashing points for securing loads, suitable for individual positioning in the rail system

¹The navigation data for supported countries is stored on the integrated memory. For more information, please contact your Audi partner. ²The map version delivered can be updated with the first 5 updates issued at intervals of six months. The current navigation data is provided for downloading on the myAudi platform at www.audi.com/myaudi and can be installed via SD card in the vehicle. The update can also take place in the vehicle in conjunction with Audi connect. In addition, it is possible to have the new navigation data installed by an Audi partner at extra cost. ³The Audi connect service traffic information online is available for many countries. For more information, please contact your Audi partner. ⁴Provided the mobile phone has the Bluetooth profile MAP (Message Access Profile). Please contact your Audi partner or visit www.audi.com/bluetooth for information on compatible mobile phones. ⁵Requires the optional equipment Audi connect.

Entertainment

Digital Audio Broadcasting

in addition to the range of analogue stations, receives programmes from digitally broadcast radio stations¹ according to DAB standard, including DAB+ and DMB audio; display of information accompanying the programme (e.g. artist and track, if provided by the radio station) as well as additional information in the form of a slide show (e.g. cover and weather)

Digital TV reception

reception of digitally broadcast free-to-air television stations¹ (in DVB-T and DVB-T2 standard with MPEG-2 or MPEG-4 standard) as well as DVB-T audio stations; display of information accompanying the programme such as teletext, subtitles and Electronic Programme Guide (EPG); automatic station search; external AV-IN connection via adapter cable; no picture possible when the vehicle is moving

Audi music interface

Portable media players² such as Apple iPod/iPhone (music functionality) as well as USB storage media and MP3 players can be connected to the vehicle via USB interface (including power supply/charge function) or Wi-Fi. In the centre console; operated via MMI or RS multifunction sport leather steering wheel; part of MMI navigation plus with MMI touch

DVD/CD changer

for 6 DVDs or CDs; supports e.g. audio CDs, video DVDs; shock-resistant location in the glove compartment and can be operated via MMI

Audi sound system

impressive sound thanks to 6-channel amplifier with a total output of 180 watts and 10 loudspeakers including centre speaker and subwoofer

Bose Surround Sound

impressive reproduction of 5.1 surround sound thanks to 12-channel amplifier with total output of 472 watts and 14 loudspeakers including centre speaker and subwoofer; AudioPilot® for noise-dependent volume adjustment and powerful and accurate bass reproduction, lifelike sound with natural tone and a feeling of space for an outstanding sound experience

Bang & Olufsen Advanced Sound System

exhilarating reproduction of 5.1 surround sound with 15 loudspeakers including centre speaker and subwoofer each with its own amplifier channel. The efficient 15-channel DSP all-digital amplifier; all-digital highly efficient 5-channel ICE-Power amplifier for woofers and subwoofers; with total output of over 1,200 watts. Polished loudspeaker covers in aluminium and automatically extending acoustic lenses for excellent sound performance and perspective from every seat, with noise-dependent volume adjustment. Privacy function provided by encapsulated loudspeaker casings which minimise the escape of sound to the outside of the vehicle and provide privacy, for example when making phone calls

Preparation for Rear Seat Entertainment

includes pre-installed wiring and mounts for the holders in the driver and front-passenger seat backrests. The appropriate Audi Entertainment mobile and the holder or an Apple iPad adapter are available as a plug-and-play solution from Audi Genuine Accessories.

Communication

Audi connect

use of the services supported by Audi connect is possible only with the optional Audi connect equipment. You also require a SIM card with data option and with LTE option³ to use LTE. The services are available only in conjunction with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Additional costs may be incurred when receiving data packets from the internet, depending on the terms of your mobile phone contract, particularly when used abroad. Because of the high data volumes involved, a data flat rate is strongly recommended.

The following services supported by Audi connect are currently available in your model:

Mobility & navigation

- point-of-interest (POI) search with voice control
- traffic information online⁴
- picturebook navigation
- fuel prices
- parking information
- navigation with Google Earth™⁵ and Google Street View™⁵
- map update online⁶
- destination entry via myAudi or Google Maps™⁵

Communication

- Wi-Fi hotspot
- messages (text messages)^{7,8}
- access to Facebook
- access to Twitter
- access to smartphone voice control

Infotainment

- weather
- online media streaming⁹
- news online (individual)
- travel information

In conjunction with the optionally available equipment Audi phone box, Audi connect includes a car phone function via SIM card slot or rSAP profile.

Use of the services supported by Audi connect is possible only with the optional Audi connect equipment. You also require a SIM card with data option and with LTE option³ to use LTE. The services are available only in conjunction with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Additional costs may be incurred when receiving data packets from the internet, depending on the terms of your mobile phone contract, particularly when used abroad. Because of the high data volumes involved, a data flat rate is strongly recommended.

The availability of the services supported by Audi connect varies from country to country. The Audi connect services are provided for at least 1 year from vehicle delivery. Following a period of 24 months, Audi connect services are extended once free of charge for 12 months. If you do not require this free extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 (0) 800-2834 7378423

The city events, train and flight information service and further services are available to the customer for 12 months. Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect enables access to Facebook, Google and Twitter services. Permanent availability can not be guaranteed as this is the responsibility of Facebook, Google and Twitter.

Please visit www.audi.com/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Assistance systems

Audi MMI® connect app

The Audi MMI connect app is available for some smartphones⁸ and supports the following Audi connect services: • Audi music stream • point-of-interest (POI) search with voice control • destination entry via myAudi or Google Maps™⁵ • traffic information online⁴

Parking system plus¹¹

acoustic and visual parking system, front and rear, assists with parking and manoeuvring. Information shown in the MMI display; measurement by ultrasonic sensors concealed in the bumpers; activated when reverse gear is selected or via a button on the centre console

Audi pre sense basic¹¹

automatically initiates preventive occupant protection measures where necessary; these include: belt tightening, activating the hazard warning lights and closing the panoramic glass sunroof (if ordered) and windows; categorises driving situations by networking the different vehicle systems

Audi phone box⁸

allows phone calls to be made in the vehicle with improved reception quality by placing the mobile phone in the universal phone holder near the front centre armrest; connection of 2 mobile phones¹⁰ via Bluetooth possible; hands-free facility and voice control (telephone); low SAR radiation in the interior by connecting to the external aerial; can be used via MMI or RS multifunction sport leather steering wheel; charging facility via USB port

Cruise control¹¹

At speeds from around 30 up to 250 km/h, the system keeps the set speed constant provided that engine power and engine braking effect permit it; operated via separate steering column stalk, set speed displayed in driver information system

Reversing camera¹¹

image of area behind the vehicle shown on the MMI display, with dynamic display elements showing the calculated path depending on steering angle; auxiliary lines and guidelines and identification of the point at which to apply opposite lock when parallel parking; reversing camera integrated discreetly in the handle strip of the luggage compartment lid; activated when reverse gear is selected or via the button on the centre console

Hold assist¹¹

holds the vehicle stationary for unlimited periods after stopping in traffic on normal uphill or downhill gradients. The system is activated by push-button and allows the driver to drive away smoothly.

360 degree cameras¹¹

safe pulling out of narrow parking spaces. Various display options for the area around the vehicle, including a virtual top view, can be selected on the MMI display.

Park assist¹¹

uses ultrasonic sensors to search for suitable parking spaces along the side of the road and helps the driver to park in and exit parking spaces by performing virtually autonomous steering manoeuvres. Calculates the ideal parking path for bay parking spaces and the ideal parking and exiting paths for kerb-side parking spaces. The driver has to accelerate, apply the brakes and monitor the parking process. The display of the surroundings warns the driver of any obstacles at the side of the vehicle, depending on the steering angle. Activated via button on the centre console

Audi side assist including Audi pre sense rear¹¹

warns by means of an LED display on the relevant exterior mirror of any situations assessed as critical for changing lanes. 2 radar sensors detect vehicles approaching from behind at the side and measure the distance and the difference in speed. The lane change assistant provides assistance between speeds of around 30 and 250 km/h. To detect a possible rear-end collision, Audi pre sense rear also uses the rear sensors of Audi side assist, in addition to Audi pre sense basic. Activated by means of a button in the mirror quadrant

I Assistance systems

Audi active lane assist¹

helps you to keep in lane by means of gentle steering intervention. The lane compliance assistant is triggered when the driver starts to cross detected lane markings without activating an indicator. The system provides support in the speed range from around 60 to 250 km/h. Steering wheel vibration can be set if the driver wants; additional display in the optional head-up display; activation via button on the steering column for the indicator.

In conjunction with the optional Audi side assist including Audi pre sense rear, a perceptible steering movement is also made before leaving the lane if a changing lane is rated as particularly critical due to a vehicle approaching from behind. This steering movement is made even if the indicator has been activated but only if both systems are activated and ready.

Assistance package including Audi pre sense plus¹

combines the following assistance systems:

- adaptive cruise control with Stop & Go function
- Audi side assist
- Audi active lane assist
- Audi pre sense basic
- Audi pre sense front
- Audi pre sense rear

A maximum deceleration function provided by Audi pre sense plus is added to the aforementioned functions. The systems in the assistance package complement each other and provide mutual assistance. Notes on activation and settings can be found in the description for the respective assistance system.

The model-specific standard and optional equipment can be found in the index from page 58 onwards.

Night vision assistant¹

assists the driver when driving at night by displaying a thermal image of the surroundings. Persons and larger wild animals are highlighted in yellow on the colour display in the driver information system. If they move or if the system determines from their position that there is a potential risk, the marking changes to red, a warning triangle appears and a warning tone is emitted.

In conjunction with one of the following lighting systems, the marked person is also illuminated with 3 successive brief flashes of the headlights (marking light):

- LED headlights combined with high-beam assist
- Audi Matrix LED headlights

Additional display of warnings in the optional head-up display; actuation using the button next to the light switch

Camera-based speed limit display^{1,2}

recognition and display of speed limits, including temporary speed limit display; situation-dependent evaluation in the wet, speed limits depending on the time of day and trailer operation³; if a sign has not been recognised by the camera, the speed limit taken from the existing navigation data is displayed via Audi connect; automatic display in the driver information system, additionally in the optional head-up display. The system simply provides information and does not intervene or provide a warning if the displayed speed is exceeded.

I Driving dynamics/brakes

Audi drive select

features different modes – comfort, auto, dynamic and individual – which allow you to change the vehicle's characteristics by adapting the power steering assistance, engine or gear-change characteristics, RS adaptive air suspension, exhaust flap control and the settings of optional equipment

tiptronic

8-speed automatic transmission with Dynamic Shift Program (DSP) and sport program; option of manual control via shift paddles on the RS multifunction sport leather steering wheel or by nudging the selector lever

Ceramic brake⁴

20-inch high-performance brake system with carbon-fibre reinforced ceramic brake discs and brake callipers painted in gloss anthracite and featuring the "Audi ceramic" logo at the front and rear; ventilated and perforated brake discs with special cooling channels

Electromechanical power steering

combines precision and comfort with exceptional energy-saving technology. The electromechanical steering system with speed-dependent power assistance ensures stability at high speeds whilst also being light and precise when parking and manoeuvring. With active countersteering to provide steering assistance to the driver for enhanced vehicle stability

Dynamic steering

When cornering, changing lanes or parking, for example, this system improves handling and ride comfort by

dynamically regulating steering according to the driving situation; in addition to adaptation of the steering effort, the steering angle is also adapted (steering ratio); also supports vehicle stabilisation through ESC.

RS brake system

19-inch diagonally-split high-performance brake system,

Antilock Brake System (ABS) with Electronic Brake Force Distribution (EBD), Electronic Stabilisation Control (ESC) with brake assist, aluminium tandem brake booster, wave brake discs ventilated at front and rear, perforated and with floating mounting; brake callipers painted in gloss black with RS logo at front and rear

Brake callipers, painted in gloss red

for RS brake system, with RS logo at front and rear

quattro® with sport differential

the electronically controlled sport differential distributes variable amounts of drive force to each rear wheel and ensures outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also improves direct steering characteristics and provides more agile handling due to the lower steering effort required.

RS adaptive air suspension

automatically regulates the vehicle height and damping by means of the electronically controlled air suspension with infinitely variable adaptive damping system on all 4 wheels; with RS 6-specific tuning; includes ride height control and manual lift function; choose from various modes via Audi drive select

RS sport suspension plus with

Dynamic Ride Control (DRC)

adjustable in 3 stages; single-tube gas-filled shock absorbers with variable suspension characteristics and coil springs; control range of Dynamic Ride Control (DRC) can be selected in 3 stages via Audi drive select: comfort, auto, dynamic

quattro®

permanent all-wheel drive with self-locking centre differential and asymmetric/dynamic torque distribution, as well as wheel-selective torque control and Electronic Differential Lock (EDL); distributes the drive forces depending on the driving situation to each individual wheel for precisely controlled, sporty handling; quattro emblem in the dashboard on the passenger side

quattro® with sport differential

the electronically controlled sport differential distributes variable amounts of drive force to each rear wheel and ensures outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also improves direct steering characteristics and provides more agile handling due to the lower steering effort required.

Audi exclusive seat belts

individual choice of colour for seat belt from the range of Audi exclusive colours

I Technology/safety

ISO FIX child seat mounting and top tether for the outer rear seats

standard mounting for practical attachment of ISO FIX child seat mounting, including additional fastening point (top tether).

Recommended child seats can be obtained from your Audi partner.

RS exhaust system

dual-branch design with chrome-plated oval tailpipe trims

RS sport exhaust system

for an enhanced acoustic experience: dual-branch, with gloss black oval tailpipe trims

Recuperation

economises on fuel through brake energy recovery; kinetic energy is converted into usable electrical energy by increasing the generator voltage when the vehicle is coasting or braking and relieving the generator during subsequent acceleration

Start-stop system

helps to reduce fuel consumption and CO₂ emission levels by automatically switching off the engine when the vehicle is stationary, e.g. at traffic lights. The start process is initiated as soon as the foot brake is released. Can be deactivated via a switch at any time

Side airbags, rear

to supplement side airbags at the front and head airbag system

Audi Extended Warranty

The Audi Extended Warranty provides extended risk cover and cost control beyond the first 2 years of the manufacturer's warranty for a variety of claims. It can be ordered directly and only on purchase of a new car. Choose from nine combinations of service life and mileage. For more information, please contact your Audi partner.

¹ Please note: The systems work only within system limits. They support the driver with driving tasks. However, the driver remains responsible and is required to be attentive. ² Only available for Western Europe.

³ Only applies for factory-fitted trailer towing hitch.

⁴ Please consult your Audi partner or national Audi website to find out more about the special features of the ceramic brake.

Model	RS 6 Avant
Engine type	V8 petrol engine with direct fuel injection and turbocharging
Displacement in cc (valves per cylinder)	3,993 (4)
Max. output ¹ in kW at rpm	412/5,700–6,600
Max. torque in Nm at rpm	700/1,750–5,500
Power transmission	
Drive type	quattro® permanent all-wheel drive
Transmission type	8-speed tiptronic
Weights/capacities	
Unladen weight ² in kg	2,025
Gross vehicle weight in kg	2,580
Permissible roof load limit/nose weight in kg	100/85
Trailer load limit ³ in kg unbraked	750
12% gradient	2,100
8% gradient	2,100
Fuel tank capacity, approx. in l	65
Performance/consumption⁴	
Top speed in km/h	250 ⁵
Acceleration 0–100 km/h in s	3.9
Fuel grade	Sulphur-free SuperPlus RON 98 ⁶
Fuel consumption ⁷ in l/100 km urban	13.4
extra-urban	7.4
combined	9.6
CO ₂ emission ⁷ in g/km urban	310
extra-urban	173
combined	223
Emission standard	EU6

Explanatory notes

¹ The figure given was calculated using the specified measuring procedure (current version of UN-R 85).

² Unladen vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

³ The engine's power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

⁴ A vehicle's fuel consumption and CO₂ emissions as well as deviations from the given values do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.

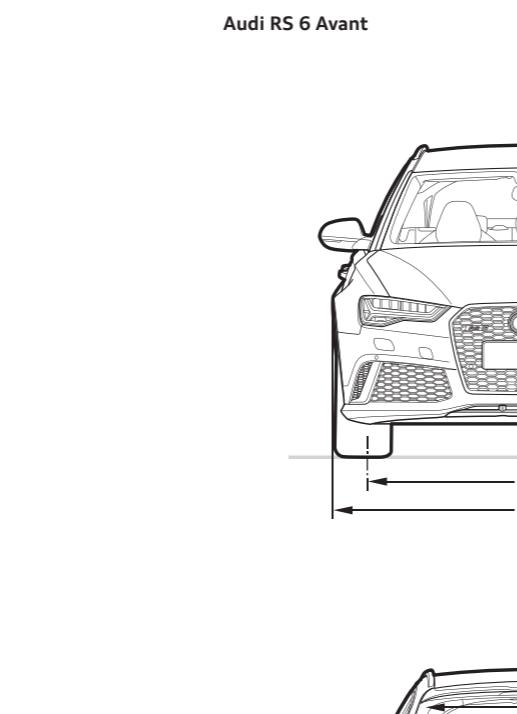

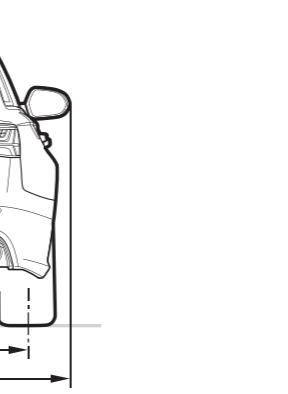

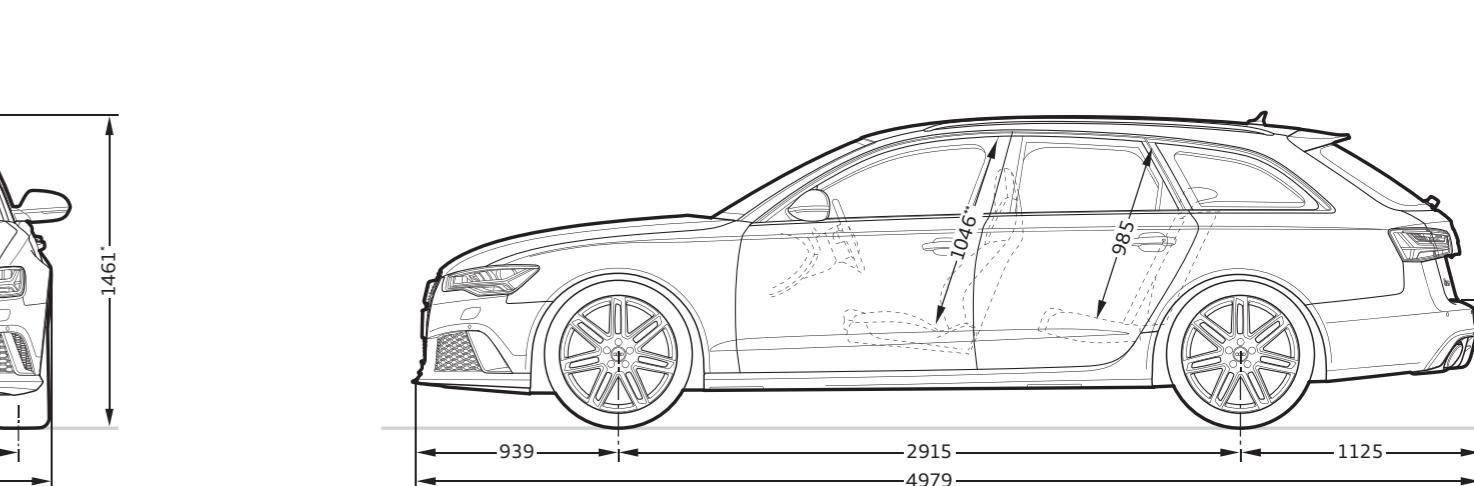

⁵ Regulated.

⁶ We recommend using sulphur-free SuperPlus unleaded RON 98 fuel complying with DIN EN 228. If this is not available, use sulphur-free super unleaded RON 95 fuel in accordance with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.

⁷ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

Important note

Special information about the wheels: Wheels with gloss turned finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

**Audi RS 6 Avant****Dimensions in millimetres.**

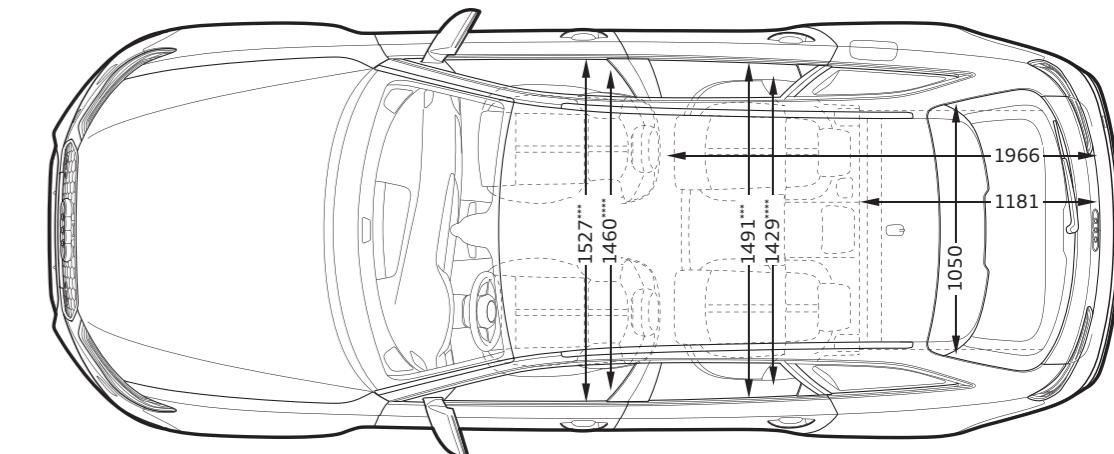

Dimensions are for vehicle at unladen weight.

Luggage compartment volume 565/1,680 l (second value is with the rear seat backrest folded down and the vehicle loaded up to roof height).

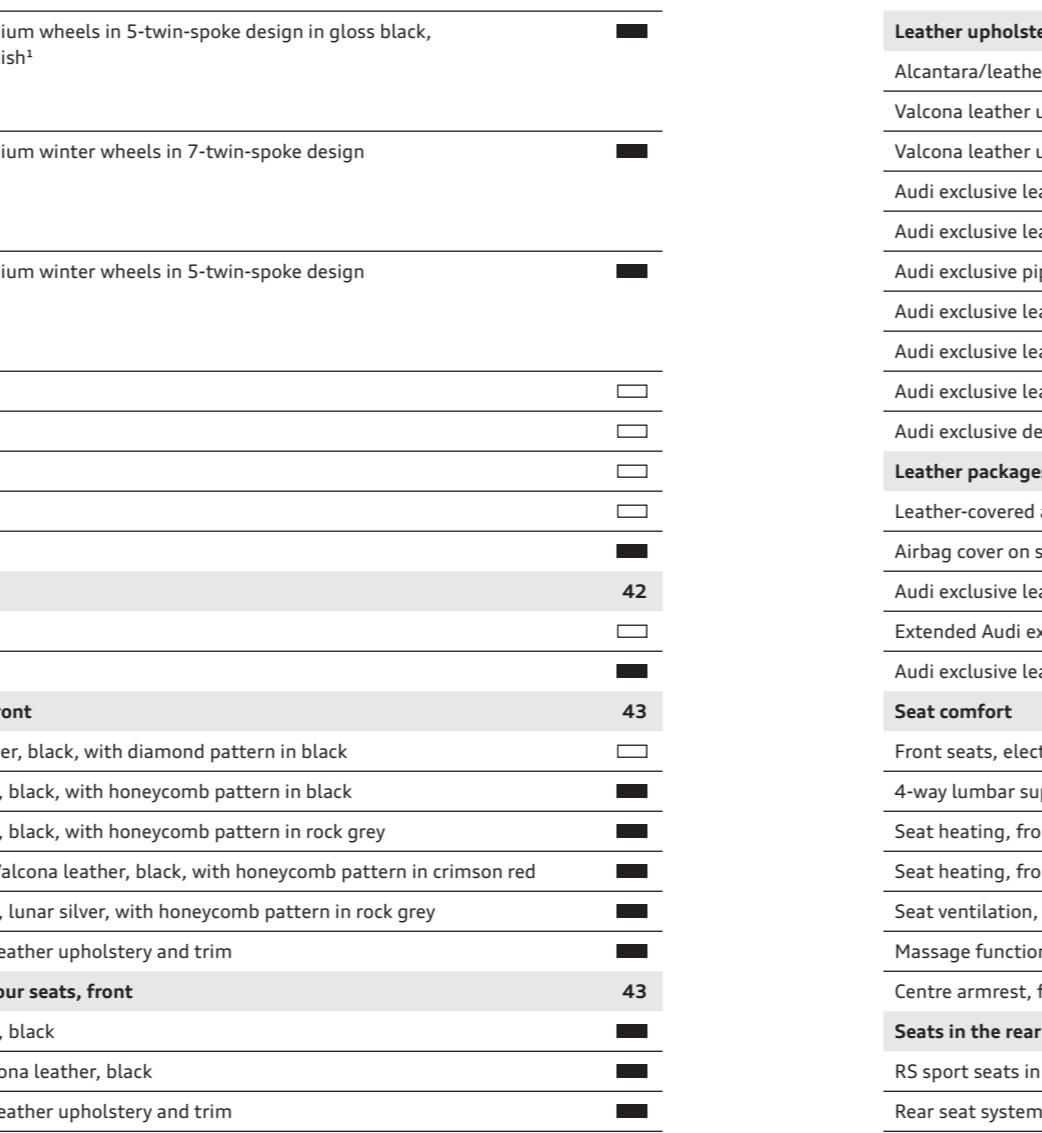

Turning circle approx. 11.9 m.

*With roof aerial the height of the vehicle is 1,482 mm. **Maximum headroom.

Elbow room width. *Shoulder room width.

Equipment for the Audi RS 6 Avant illustrated (p. 4-21):

Paint finish: Daytona grey, pearl effect

Wheels: cast aluminium wheels in 5-twin-spoke design

Seats/seat upholstery: RS sport seats, front, in Valcona leather, black, with honeycomb pattern in rock grey

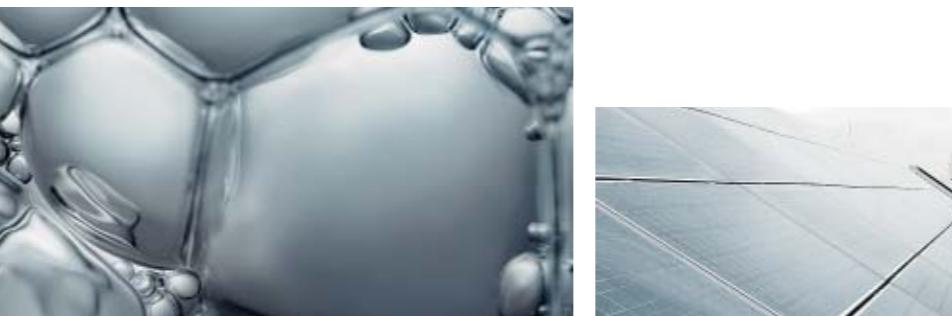

Inlays: carbon

Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi RS 6 Avant.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	275/35 R 20	E	A	73 (E)
	285/30 R 21	F-E	C-A	75-71 (E)-(F)
Winter tyres	245/40 R 20	E	C	73 (E)
	285/30 R 21	C	C-B	75-73 (E)

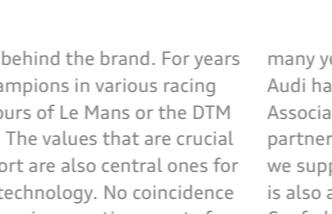

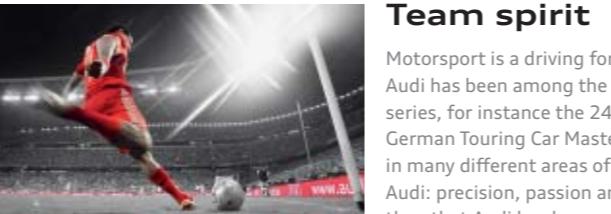

It is not possible to order a specific tyre. Please ask your Audi partner which tyres are available in your country.

The Audi experience

The fascination of Audi can be experienced in many different ways. Audi City Berlin, Audi City London and Audi City Beijing, for example, give you digital access to all models at their actual size and in real time. And of course it is always worth visiting one of the major motor shows. This is where Audi always presents its new models and invites you to take a look at how the future is being shaped with "Vorsprung durch Technik". Anyone interested in seeing how Audi is already putting this into practice will find fascinating insight in the "Vorsprung durch Technik" online special at www.audi.com. But a look back can also be rewarding: at the Audi museum mobile in Ingolstadt, history and high-tech go hand in hand. A total of 130

historic exhibits and state-of-the-art forms of presentation make for a thrilling symbiosis. Plus, Audi driving experience allows you to live the excitement and countless possibilities of current Audi models. Here, pure driving enjoyment is combined with valuable learning effects. This is ensured by a team of specially trained and highly qualified instructors who provide practical tips to help you optimise your driving skills. All this can now also be enjoyed at the recently opened Audi driving experience center in Neuburg, near Ingolstadt. Facilities here include a circuit of up to 3.4 kilometres that features challenging combinations of bends, a 30,000 m² dynamic driving area and an offroad section where Q models can be put through their paces.

Team spirit

Motorsport is a driving force behind the brand. For years Audi has been among the champions in various racing series, for instance the 24 Hours of Le Mans or the DTM German Touring Car Masters. The values that are crucial in many different areas of sport are also central ones for Audi: precision, passion and technology. No coincidence then that Audi has been sponsoring sporting events for

many years. In the world of winter sports, for example, Audi has been the main sponsor of the German Ski Association (DSV) for almost three decades and has also partnered 16 other national alpine teams. In football, we support national and international teams. And Audi is also a partner for the German Olympic Sports Confederation.

to allow CO₂-neutral mobility. Seeing to it that production in Audi plants gradually becomes CO₂-neutral is another aspect of our comprehensive approach. Audi is also committed to society – particularly in the fields of education, technology and social projects. At Audi, sustainability is closely linked with how we see the future: the Audi Urban Future Initiative sees Audi working with international experts to get to the root of future urban challenges and trends in mobility.

Discover the world of Audi.

Choosing an Audi means choosing a brand that offers more. More individuality. More exclusivity. More fascination.
